- Offer them cost-effective meeting tools so they can achieve better business results with their teams.

Team Turbos

The Components

Leaders now can easily integrate FranklinCovey's Team Turbos into their meetings. They can implement the lessons learnt from the workshop "Leadership: Great Leaders. Great Teams. Great Results" or deepen the principles of "The 7 Habits of Highly Effective People". FranklinCovey will give them and their teams all necessary support for a wide range of topics.

The **Leader's Guide** provides clear guidelines and helps the leader plan a sequence of Team Turbo meetings in the best possible way, leaving it to the team leader to focus on the relevant content. Of course the leader may also use the material and personal notes of the workshops attended before.

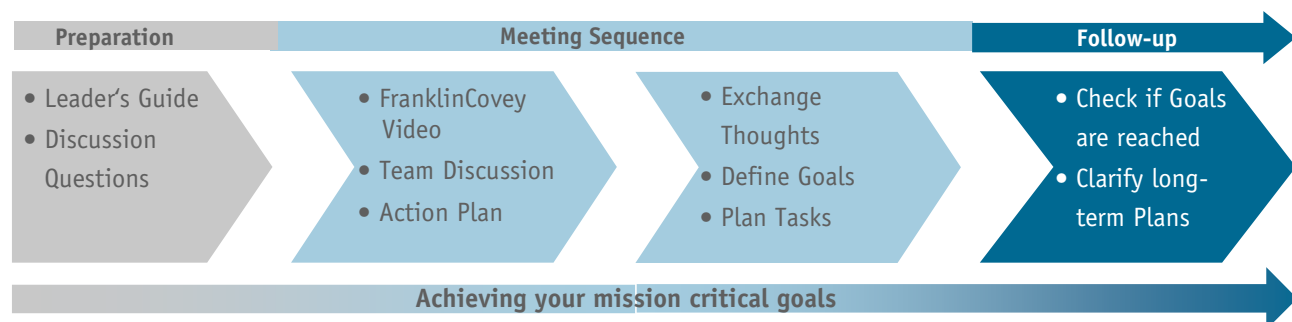

A relevant FranklinCovey **video** illustrates the topic and provides the foundation for a team discussion. The inspirational or emotional short movie will enable the team leader to highlight the key messages and open up new perspectives for the team.

With the help of the **Discussion Questions** the leader guides the team process, and enables them to work together in order to achieve new results.

The Team Turbo Process for Leaders

Team Turbos provide a structured framework to introduce topics from the workshops directly with your teams and to drive change management. You will exchange thoughts, enable intensive discussions, and increase the dynamic of your teams. A simple and pragmatic solution!
