

THE **5 CHOICES**[®] to extraordinary productivity

The 5 Choices Solution

The 5 Choices[®] to Extraordinary Productivity process measurably increases productivity of individuals, teams, and organizations. Participants make more selective, high-impact choices about where to invest their valuable time, attention, and energy.

1 **ACT ON THE IMPORTANT**
don't react to the urgent

In today's world, people are drowning in email, overwhelmed with demands, and trying to do more with less. **5 Choices** participants filter the vitally important priorities from distractions so they can focus on making a real contribution.

2 **GO FOR EXTRAORDINARY**
don't settle for ordinary

Everyone wants to make a difference, but competing priorities often prevent them from achieving extraordinary results. **5 Choices** participants redefine their roles in terms of extraordinary results to achieve high-priority goals.

3 **SCHEDULE THE BIG ROCKS**
don't sort gravel

The crushing increase in workday pressures can make people feel helpless and out of control. **5 Choices** participants regain control of their work and lives through a cadence of planning and execution that produces extraordinary outcomes.

4 **RULE YOUR TECHNOLOGY**
don't let it rule you

An electronic avalanche of email, texts, and social-media alerts seriously threaten productivity as never before. **5 Choices** participants leverage their technology and fend off distractions by optimizing platforms like Microsoft[®] Outlook[®] to boost productivity.

5 **FUEL YOUR FIRE**
don't burn out

Today's exhausting, high-pressure work environment burns people out at an alarming rate. Applying the 5 Energy Drivers[™], participants benefit from the latest in brain science to consistently recharge their mental and physical energy.

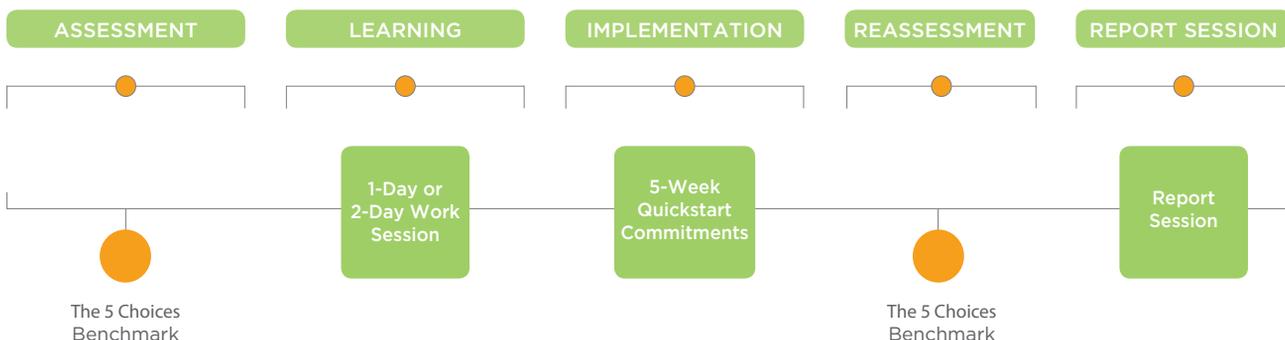

CHALLENGE

The barrage of information coming at us from multiple sources (e.g., texts, email, tweets, blogs, and alerts), coupled with the demands of our careers, are overwhelming and distracting. The sheer volume of information threatens our ability to think clearly and make wise decisions about what's important. If we react to these stimuli without clear discernment, we fail to accomplish the goals that matter most in our professional and personal lives.
